

Having trouble making up your mind? Here's a rule of thumb, statistic if you want....

Local government services are limited and in some means based on the number of citizens to server.

- One police officer on duty for each 2,500 people.
- One fire fighter on duty for each 4,500 people.
- One emergency medical specialist on duty for each 6,000 people.
- One 911 operator for each 20,000 people.

Is your emergency important enough to make sure these emergency responders can find your home in a reasonable time?

(1/2010)

Our program is part of a county wide **volunteer effort** to establish a uniform address marker for rural Grant County, residential areas and businesses.

Our program is endorsed by:

Grant County Sheriff
Frank DeTrolio

Emergency Manager
Sam Lorenz

Grant County Commissioners

Cindy Carter

Richard Stevens

Carolann Swartz

Fire District's

Law Enforcement

Emergency Medical Services

509-762-1462

In an emergency, could local police, fire or emergency medical find your home?

The answer is YES!.....Only if your address is clearly marked, and your address marker is located at your property access road or driveway unobstructed from their view.

Statistics

Grant County Emergency Responders served 60,000 calls for service in 2005.

In most cases the most important information they received was the address. Is your address posted to assure emergency responders can locate your home or business?

UNIFORM ADDRESS MARKERS

All address markers in Grant County should be of the same type, color, size and height. Reflective to be easily seen at night and distinguished from other signs and markers that may be located at the road edge.

Uniform Markers are available to you.

Just fill out the order form provided
